

The 14th International Conference on Intelligent Information Hiding and
Multimedia Signal Processing (IIHMSP 2018)
November 26-28, 2018 Sendai, Japan

<https://iihmSP2018.github.io/>

CALL FOR PAPERS

INVITED SESSION: Deep Learning for Information Hiding

This special session will discuss recent advances in the information hiding such as deep learning, GANs, cloud computing, Intelligent Control, Intelligent composing, etc. This session will not be limited about architectures, algorithms and implements of this field. Contributions containing new insights and findings in this field are welcome. It provides an international forum for researchers and specialists from the field of merging techniques and its applications. Although particular attention will be given to the above areas, it should be stressed that a broad range of submissions are encouraged.

Full Paper Due Date: *July 15, 2018*

Acceptance Notification: *July 31, 2018*

Camera-ready Paper Deadline: *August 15, 2018*

SUBMISSION OF PAPERS

Papers are invited from prospective authors with interests in this particular invited session and related areas of application. All contributions should be original and not published elsewhere or intended to be published during the review period. IIHMSP 2018 conference proceedings will be published in the book series entitled “Smart Innovation, Systems and Technologies”, which is on the EI index list, by Springer. Normally, papers published in this book series will be indexed by EI when the paper quality fits the requirement and the publishing procedures (including the oral presentation) are completed. All submissions should be no less than six pages and the maximum is 10 pages. All papers must be submitted electronically in PDF format only. Details of the required paper format are available at the official IIHMSP 2018 website (<https://iihmSP2018.github.io/>). For further information, please contact the session organizers given below.
