CALL FOR PAPERS

INVITED SESSION: Multimedia System and Intelligent Computing

Multimedia system and intelligent computing is a challenging research area owing to its diverse involving areas such computer information, communication, physics, math and engineering. For the development of next-generation technologies, diversified multimedia content, intelligent applications and services, and interdisciplinary integration should become the goals of this era.

The multimedia through mature intelligent computing and multimedia systems will be able to provide users with richer and diversified services. This session addresses emerging research fronts precipitated by such ultra-scale information processing and computing with variety of applications and technologies. Contributions containing new insights and findings in this field are welcome.

IMPORTANT DATES:

Due Date of Full Paper: 30 June, 2018
Date of Notification: 31 July, 2018
Due Date of Camera-ready Paper: 15 August, 2018
